

Greencastanea

Universidade de Vigo

Soutos Sativa S.L.

GREENCASTANEA activities

1st action

In vitro cultivation techniques

2nd action

Biotechnological mycorrhization techniques

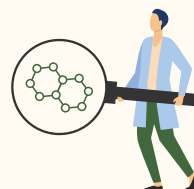

3rd action

Biotechnological thermo-hydrotherapy techniques

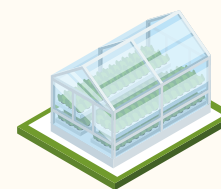

4th action

Biotechnological techniques for the clonal selection and molecular identification

5th action

Establishment of a demonstrative pilot plant

Dissemination

Transfer of the results onto the agri-forestry sector

GREENCASTANEA is funded by grants to support pilot projects, development of new products, processes, and technologies in the agri-forestry scope, co-funded by the European Agricultural Fund for the Rural Development (EAFRD), in the framework of the 2014-2020 Galician Rural Development Program (RDP). The Consellería do Medio Rural is the Galician Administration authority responsible for proposing and executing the general guidelines in the rural scope and encompasses powers in agriculture, livestock, rural development, and regional planning, rural structures, agri-food, and forestry industries, mountains, and prevention and defense against forest fires.

Total budget: 187.774,91 €

Total grant: 150.000,00 €

UE co-fund: 75% Feader
