Support Corners' functioning:

What are the Support Corners?

The 3 Support Corners are sessions dedicated to discuss a specific topic of the project. There can be 2 formats for Support Corners: (i) open discussion format (like Support Corner 1), to address very precise points prepared in advance by the moderator, or (ii) presentation format.

/!\ Online participants will not be able to participate, Corner moderators should ask them questions via email beforehand if needed.

Who can participate to Support Corners? How to register for Support Corners?

Anyone can participate to Support Corners. To register to the Support Corners, please put your name in the corresponding Column on this [document](#).

/!\ Participants will be able move around and visit the different corners to ask questions to the moderators and/or learn about a specific topic.
