

AGRI-RESVAL

AGRI-RESVAL activities

Valorization Processes of Vertical Farming Waste for the Production of High-Value Natural Extracts and Their Application in the Food Industry for Fisheries

1

Valorization of Antioxidant-Rich Waste

2

Design of the Extraction Protocol

3

Characterization of the Natural Extracts

4

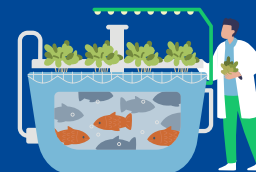

Determination of the Antioxidant Capacity of the Natural Extracts

5

Laboratory Validation of AGRI-RESVAL Formulations

6

Production Plant Validation of AGRI-RESVAL Formulations

Implementation of the Dissemination and Transfer Plan

Co-funded by the European Union

Total Project budget: 140.000 €

Total grant: 140.000 €

This project is funded by the grants for the execution of innovative projects of the operational groups of the European Innovation Partnership (AEI), co-financed 80% by the European Agricultural Fund for Rural Development (FEADER) within the framework of the Strategic Plan of the Common Agricultural Policy (PEPAC) 2023-2027, with 14% own funds from the Xunta de Galicia and 6% funds from the Ministry of Agriculture, Fisheries and Food. The Consellería do Medio Rural is the body of the Galician Administration responsible for proposing and executing the general guidelines in the rural scope, encompassing competencies in agriculture, livestock, rural development and regional planning, rural infrastructures, agri-food and forestry industries, forests, and the prevention and defense of forest fires.
