

SIMBAV Activities

Agro-poultry farming symbiosis: towards the modernisation of the sector through digitalisation and circular economy strategies

1 Development of the intelligent management system and digitalisation of the farm.

2 Energy use through drying, combustion and gasification of waste.

3 Reduction of water consumption and quantification of the farm's energy savings.

4 Use of by-products to reduce the use of inorganic fertilisers.

5 Life Cycle Analysis of the efficient management strategy developed.

6 Dissemination and transfer of results throughout the project.

Co-funded by
the European Union

MINISTERIO
DE AGRICULTURA, PESCA
Y ALIMENTACIÓN

Total Project budget: 597.650,57 € Total grant: 595.550,57 €

Innovation project within the framework of the 2023–2027 Common Agricultural Policy (CAP) Strategic Plan, funded 80% by the European Agricultural Fund for Rural Development (EAFRD) of the European Union, and 20% by the Ministry of Agriculture, Fisheries, and Food (MAPA). The Directorate–General for Rural Development, Innovation, and Agri–Food Training (DGDRIFA) is the authority responsible for the administration of these funds.
